

# Nfina 8224R-i20

## FEATURES:

- 2U rack-mount dual-socket server
- Choice of Intel® Xeon® Scalable Processors
  - Platinum, Gold, Silver and Bronze available
  - 1.7GHz to 3.8GHz processor speeds available
  - Up to 28 cores per processor
- Intel® Advanced Vector Extensions (AVX-512)
  - Accelerates deduplication, encryption, compression, & decompression
  - Double the flops per clock cycle of AVX2
- Intel® Ultra Path Interconnect
  - Up to 1.54TB total memory
  - Supports Intel® Optane™ Memory
- 24 x 2.5" hot-swap drive bays
  - Supports SAS, SATA, SSD, & NVMe
- Up to 264TB storage
- 12Gb/s SAS capable
- Redundant hot-swap power supplies
- 2 x 10GbE (100/1000/10000) LAN ports

The Nfina Technologies 8224R-i20 storage server delivers a high-performance, high-density storage solution ideally suited for file server and backup storage applications.

The Nfina 8224R-i20 with Intel® Xeon® Scalable processors is truly a breakthrough storage and compute platform. Delivering 4.2x greater virtual machine performance, and 65 percent lower cost of ownership compared to four year old devices, greatly reducing strain on both your users and your budget. If even greater performance is required, this server is the ideal candidate for an all-flash storage array and can be loaded with 24 SSD or NVMe direct attach drives, alleviating the I/O bottleneck between high performance and capacity.

In environments consisting of hyperconverged systems, virtualized systems, advanced analytics, or artificial intelligence, the 8224R-i20 delivers on performance and efficiency. Data centers for enterprise, military, and municipal government will benefit from Nfina's outstanding value, reliability and performance.

Nfina products deliver exceptional functionality by creating products that are easily customized to fit specific applications. Designed and built for virtualized computing environments, our products provide highdensity, maximum yield solutions for our customers. Multiple options for high performance computing, including I/O, RAID, storage, and memory options make our products a custom fit for many applications.

All Nfina Technologies' servers are backed by a five-year limited warranty and include 24x7 tech support with remote diagnostics. Next day and four hour onsite response options are available.

# NFINA 8224R-i20

SPECIFICATIONS	
Form Factor	2U rack-mount, 3.44" x 16.93" x 27.95"
Operating Temperature	10°C to 35°C (50°F to 95°F)
Processor	Intel® Xeon® Scalable Processors, up to 28 cores each
Processor Speed	1.7GHz to 3.8GHz
Socket	Dual Socket P
Memory	Up to 24 DIMMs, DDR4 ECC 2133/2400/2666 MHz Up to 1.54TB Memory Intel® Optane™ Memory supported
I/O	Five USB and Two serial ports
Ethernet	2 x 10GbE LAN (100/1000/10000) standard, other options available
PCIe® Slots	Two - 3x PCIe® Gen3 x8 One - 1x PCIe® Gen3 x8 + 1x PCIe® Gen2 x4
Storage	24 x 2.5" hot-swap drive bays (front) Supports: 24 NVMe, SSD, SATA, and SAS drives 2 x 2.5" rear mounted hot-swap drives (optional) 2 x 2.5" internal SSD drives (optional) 2 x Internal M.2 SSDs, PCIe® or SATA 22x80 (optional)
Maximum Storage	Up to 264TB, depending on drive type
Software RAID	0,1,10, optional 5 Intel® VROC (Virtual RAID on CPU) for optional NVMe RAID
Hardware RAID	LSI® Hardware RAID (optional)
Input Voltage	100-127V @ 8.5A, 50/60 Hz 200-240V @ 7.5A, 50/60 Hz
Power Supply	Redundant hot-swap 1300W AC power supplies
Remote Management	Remote Management Module (RMM) included
Trusted Platform Module	Trusted Platform Module 2.0 (TPM) optional
OS Supported	Microsoft® Windows Server® 2012, 2016, 2019, Windows® 10 Pro/Enterprise, VMware® ESXi™ 6.0/6.5, Open-E® JovianDSS™ & DSS7, Red Hat® RHEL 5,6,7, SUSE® SLES 11,12, Ubuntu 14,15,16,17, CentOS™ 6,7, XenServer® 6.5-7.3, more options available
Certifications	NRTL Nemko (US, Canada), CE (Europe), RCM (Australia/NZ), GS (Germany), FCC (US), ICES-3(A) (Canada), KC (Korea), Ukraine Certification, BSMI (Taiwan), EAC (Russia), VCCI-A (Japan), RoHS EVPU 20 (China), MIC (Vietnam)
Warranty	5 years
